

If you have contact with patients...

**Protect yourself, your family,
and everyone at your clinic!**

The Minnesota Academy of Family Physicians is challenging all family medicine clinics to achieve a 95% vaccination rate among staff who have clinical contact with patients. Help your clinic get recognized by the MAFP for this important patient safety measure. Get your flu shot before November 30, 2011.

Don't delay - get your seasonal influenza vaccination today!
